

1. Information we collect

1.1 Information you provide: The chat history with the bot can be recorded to improve speech recognition in forthcoming updates. Your name, IP Address, Email Address or any other sensitive data is not collected at all. Only the interaction with the bot is recorded for training and quality purposes.

2. Information that we share

2.1 We share info about Zoya Abbas. Every piece of information is collected through search over the Internet. We share only common queries and try not to disclose any personal information about her.

3. How do we use your data?

3.1 We collect only your interaction with the bot and use your data to just improve the quality of the bot and to add some more queries.
